Future Lab

DRONE CODE:
PROGRAM AND FLY

Hands-On Drone Programming Workshop for Students in Grades 7–12

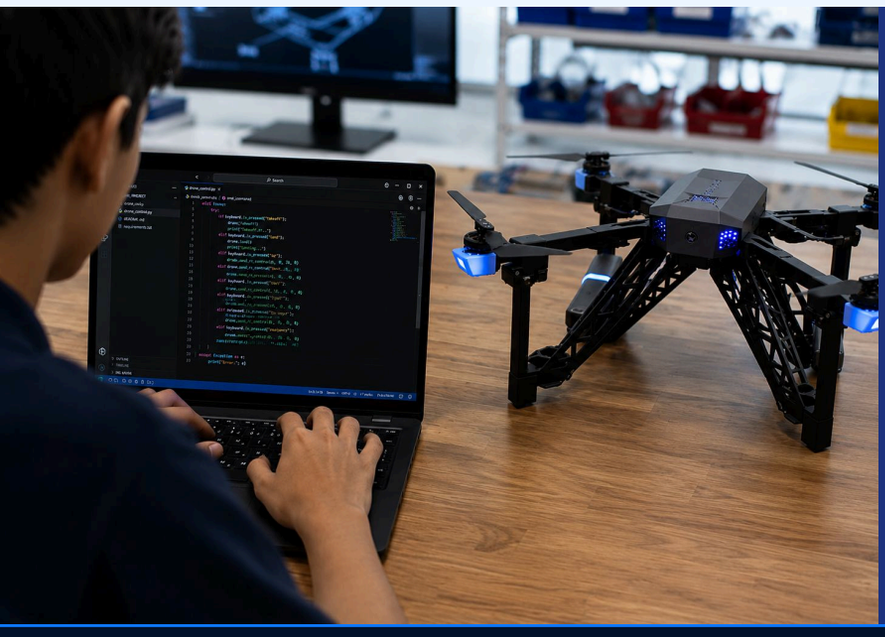

An exciting program where every participant writes real code and controls an actual drone. **Here, children don't just watch technology — they create it.** This is a true hands-on IT experience that develops logic, algorithmic thinking, and an understanding of how modern technology works.

FOR:
12–17 years (Grades 7–12)

GROUP SIZE:
up to 24 students

DURATION
90
minutes

WHAT AWAITS PARTICIPANTS?

1 **PROGRAMMING IN ACTION**
First steps in writing code for a drone

2 **CONTROLLING A REAL DEVICE**
The drone performs commands written by the participants

3 **CREATING YOUR OWN PROGRAM**
Everyone will write a script and see it work
