Future Lab

EXCURSION

SKY MECHANICS TOUR:

A FASCINATING JOURNEY INTO THE WORLD OF DRONES

FOR:
students in grades 2-6

GROUP SIZE
No more than 30 people

More recently, unmanned aerial vehicles seemed like a fantasy. Today, this is a real practice, because drones are used everywhere: as toys and assistants, in agriculture and industry.

We invite students to visit a real drone factory to discover a new amazing world of the future!

SUMMARY OF THE PROGRAM:

- guided tour of the Future Lab enterprise
- introduction to the professions of UAS operator, drone assembler, etc.
- getting practical skills in piloting

OUR PROGRAM INCLUDES:

A fascinating tour of the Future Lab company, during which children will get acquainted with the latest technological developments, find out what tasks a modern enterprise is engaged in.

Master class dedicated to unmanned aerial vehicles. During the master class, students:

- **learn** what unmanned aerial vehicles are, their types and areas of application, the history and prospects for the development of UAV technologies;
- **get** practical piloting skills.

A trip to the world of high technologies will give children unforgettable emotions!
